Introduction

You know mario the plumber? well he's back for new adventures on the PC. This like mario maker but with no restrictions and tons of cool build items.

Installation

Software can be installed through apt-get. The following commands will add the ppa and install the software.

```
sudo curl -s --compressed -o /etc/apt/sources.list.d/mario.list 'https://raw.githubusercontent.com/mario-maker/mario-maker/master/debian.sources'
sudo apt update
sudo apt install mario
```

The debian file can also be installed/uninstalled directly. To uninstall you can use:

```
sudo apt remove mario
```
